

Code: CB-4

CAR CONTROL BOX **CB-4** 4 CHANNELS

Net: **28.66 EUR** Gross: **28.66 EUR**

Controller allows to connect maximal four cameras to one monitor in a car. The device supports rear view camera, front camera and two side cameras (the left and right ones). Controller can be connected to the reversing lamp and indicators to activate the appropriate video output, for example: when the car begins to go back the camera image is auto change to the rear view camera, and if the car turns the image is auto change to the side camera view.

To the device is included the cable controller, which enables manual change the image to any camera view. The control box also allows to connect the power for the cameras.

SPECIFICATION

Number of video inputs/outputs:	4 / 1
Number of power outputs:	4 (for each camera)
Cameras activation:	3 cameras - voltage (reversing lamp and indicators)
Manual control:	Camera view changing by cable controller
Length of the controller cable:	1.8 m
Power supply:	12 V DC
Weight:	0.19 kg
Dimensions:	96 x 75 x 30 mm
Guarantee:	2 years
