## VIDEO DOORPHONE KIT **VD-M75B**

Net: **85.16 EUR** Gross: **85.16 EUR**

Video Doorphone is mounted in a surface housing. The equipment opens the door as long as the button on the control panel is held down (to increase the duration of the button, a timed relay must be inserted into the circuit).

### SPECIFICATION

| DOOR STATION:              |                                                         |
|----------------------------|---------------------------------------------------------|
| Sensor:                    | 1/3 " CMOS                                              |
| Camera view angle:         | ~ 92 °                                                  |
| IR illuminator:            | Built-in Infra-Red illuminator enables night monitoring |
| proximity reader built-in: | —                                                       |
| Video output:              | 1 Vpp / 75 Ω                                            |
| Power supply:              | 15 V DC                                                 |
| Power consumption:         | < 2 W                                                   |
| Housing:                   | Metal, Waterproof                                       |
| Color:                     | Dark graphite                                           |
| Operation temp:            | -25 °C ... 60 °C                                        |
| Weight:                    | 0.185 kg                                                |
| Dimensions:                | 51 x 125 x 44 mm                                        |
| INDOOR PANEL:              |                                                         |
| Shield:                    | 7 " - TFT LCD                                           |
| Resolution:                | 800 x 480                                               |

|                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Main features:     | <ul style="list-style-type: none"> <li>• Plug &amp; Play</li> <li>• Number of ring-tones : 10</li> <li>• Automatically capture and save images after the bell button pressing</li> <li>• Recording of the last 50 images from the camera - Internal memory</li> <li>• Micro SD memory cards up to 32GB support (possible local recording) (not included)</li> <li>• Ultra-flat hands-free monitor, with speakerphone</li> <li>• 4-wire cable installation max. 200 m</li> <li>• Door lock (strike) - 2-wire cable installation</li> <li>• Can be extended with additional monitor and camera</li> <li>• Communication : via cable (duplex)</li> <li>• cable included : 4.7 m</li> </ul> |
| Power supply:      | 15 V DC / 1200 mA (power adapter included)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Power consumption: | < 1 W Standby<br>≤ 6 W Operation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Color:             | Black                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
