

Code: UT-P1305

# LABORATORY POWER SUPPLY **UT-P1305** UNI-T

Net: **595.68 PLN** Gross: **595.68 PLN**

The UT-P1305 laboratory power supply allows you to generate a constant voltage or current with strictly defined parameters. The device can work in one of two modes: as a source of constant voltage or as a source of constant current.

## SPECIFICATION

|  |   |
|--|---|
| Output voltage range of the power adapter: | 0 V ... 32 V  |
| Power supply output current range:         | 0 A ... 5 A   |
| Output power:                              | 160 W   |
| Setting resolution:                        | <ul style="list-style-type: none"><li>• Voltage : 100 mV</li><li>• Current : 10 mA</li></ul>  |
| Setting accuracy:                          | $\pm (1\% + 2)$   |
| Ripple and noise:                          | <ul style="list-style-type: none"><li>• Voltage : <math>\leq 1</math> mV RMS</li><li>• Current : <math>\leq 3</math> mA RMS</li></ul> |
| Number of outputs:                         | 1   |
| Display:                                   | LED display - Double  |
| Power supply:                              | 230 V AC / 110 V AC - selectable by switch  |
| Operation temp. / Relative humidity:       | 0 °C ... 40 °C / 10 % ... 80 %  |
| Weight:                                    | 5.46 kg   |
| Dimensions:                                | 280 x 145 x 170 mm  |
| Manufacturer / Brand:                      | UNI-T   |
| Guarantee:                                 | 2 years   |

In the kit:

## OUR OPINIONS

- Aesthetic and solid construction.

- Continuous fan operation regardless of load.

## PACKAGE

|                                  |                    |
