

Code: TL-MR6400

## ACCESS POINT 4G LTE +ROUTER **TL-MR6400** 300Mb/s TP-LINK

Net: **77.14 EUR** Gross: **77.14 EUR**

The TL-MR6400 Wireless Router, operating in accordance with the 802.11 b/g/n standard, allows to share a network connection between several users in areas that are covered by 3G/4G signal.

The device does not require any additional configuration, it is ready to use immediately after placing the SIM card inside and connecting the power supply.

### SPECIFICATION

|                                |                                                                                                                         |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Frequency range:               | 2.4 GHz                                                                                                                 |
| Antenna type:                  | 2 x WiFi built-in ,<br>2 x 4G LTE - 2 x SMA socket - Possibility to connect the wire antenna                            |
| Standards:                     | 802.11n/g/b IEEE 802.3/3u                                                                                               |
