DVR **RC-8350H** 8 CHANNELS +eSATA

Net: **779.67 PLN** Gross: **779.67 PLN**

The RC-8350H digital recorder is a professional device applicable in surveillance systems. The H.264 video compression standard using to record video data, allows to get the best possible quality of recorded image at minimal network transfer and disk storage capacity. The menu options layout has been designed for all users, even beginners can easy navigate and change parameters in DVR settings without any problem.

Attention! For dynamic IP addresses we recommend to use www.no-ip.com service. Please configure this service on your router, because a router is the first network device in properly designed LAN networks. We do not recommend to use the default configured DVR DDNS service, because the main server is located in the South Korea and there are big latency times.
