# HD DVB-T/DVB-T2 DIGITAL RECEIVER **FERG-ARIVA-T30** H.265/HEVC FERGUSON

Net: **19.80 EUR** Gross: **19.80 EUR**

Hybrid digital TV receiver FERG-ARIVA-T30 is one of the cheapest solutions allowing users of older TV sets to receive TV programs in the newer DVB-T2 system with the latest H.265/HEVC video compression standard.

The analog EURO/SCART connector enables cooperation with TV sets that do not have a digital input, e.g. CRT TV sets. You can use the HDMI connection to deliver HD quality signals to your TV.

The device plays pictures, music and videos - both in SD resolution and in high definition HD. The USB port allows to record video data (PVR) to external data media, such as hard disks or flash memory (pendrives).
