Main features	• Intelligent image analysis Human detection • Video PUSH, e-mail personal messaging • Privacy zones	• Intelligent image analysis Human detection • Video PUSH, e-mail personal messaging • Privacy zones	RS-485 interface	SMD PLUS - searching for an object classified as human, motor vehicle	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as human, motor vehicle, non-motor vehicle. • Coax AudioAlarm support. • Intelligent image analysis: crossing the line (tripwire), abandoned/missing object, classification of people and vehicles, counting people / vehicles. • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 20 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 12 selected photos with the ability to independently set the similarity threshold for each photo	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as human, motor vehicle, non-motor vehicle • Coax AudioAlarm support. • Intelligent image analysis: crossing the line (tripwire), abandoned/missing object, classification of people and vehicles, counting people / vehicles. • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 20 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as human, motor vehicle, non-motor vehicle • Coax AudioAlarm support. • Intelligent image analysis: crossing the line (tripwire), abandoned/missing object, classification of people and vehicles, counting people / vehicles. • advanced face recognition and search functions • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) • Support for up to 10 face databases, including 20 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo	• Cooperation with Dahua devices working in the concept of the Internet of Things (IoT). • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window. • SMD PLUS - searching for an object classified as human, motor vehicle, non-motor vehicle • Coax AudioAlarm support. • Intelligent image analysis: crossing the line (tripwire), crossing the line (tripwire), classification of people and vehicles • advanced face recognition and search functions • Filtering of false alarms, based on the recognition of persons and vehicles • Support for up to 10 face databases, including 10 000 face images • Detection of faces not included in the device database • Searching for faces in recordings based on max 8 selected photos with the ability to independently set the similarity threshold for each photo • SMD PLUS - searching for an object classified as human, motor vehicle, non-motor vehicle • Port RS-232	Intelligent image analysis	• DVR from the ArcSense series • Intelligent image analysis - intrusion, crossing the line (tripwire), Deep Learning technology • Motion detection with human (with recognizing people and vehicles) • Filtering of false alarms based on the recognition of persons and vehicles • face detection	• DVR from the ArcSense series • Intelligent image analysis - intrusion, crossing the line (tripwire), Deep Learning technology, Smart motion detection (with recognizing people and vehicles) • Filtering of false alarms based on the recognition of persons and vehicles • face detection	• DVR from the ArcSense series • Intelligent image analysis - intrusion, crossing the line (tripwire), Deep Learning technology • Motion detection with human (with recognizing people and vehicles) • Filtering of false alarms based on the recognition of persons and vehicles • face detection	• DVR from the ArcSense series • Intelligent image analysis - intrusion, crossing the line (tripwire), Deep Learning technology • Filtering of false alarms based on the recognition of persons and vehicles • Motion detection with human/vehicle silhouette recognition	• DVR from the ArcSense series • Intelligent image analysis - intrusion, crossing the line (tripwire), Deep Learning technology • Filtering of false alarms based on the recognition of persons and vehicles • Motion detection with human/vehicle silhouette recognition	• Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window, • Intelligent image analysis: crossing the line (tripwire), intrusion - classification of people and vehicles, face detection	• Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window, • Intelligent image analysis: crossing the line (tripwire), intrusion - classification of people and vehicles, face detection	Intelligent image analysis - crossing the line (tripwire); intrusion - classification of people and vehicles, abandoned/missing object, face detection, face recognition - 2 Channels • Cooperation with POS Point of Sale) terminals • Filtering of false alarms based on the recognition of persons and vehicles (tripwire, intrusion) - • Perimeter protection • 2 Channel • SMD PLUS - searching for an object classified as: human, motor vehicle, non-motor vehicle - 16 Channels	• RS-232 interface • Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window, • Intelligent image analysis: crossing the line (tripwire), intrusion - classification of people and vehicles, face detection	• RS-232 interface (RJ-45) • Privacy zones - max. 4 • SMD PLUS - searching for an object classified as: human, motor vehicle, • POS - support the machines installed in the points of sales and displaying the date from them as overlaid text on selected channel window; • Intelligent image analysis: crossing the line (tripwire) intrusion - classification of people and vehicles, face detection	• Intelligent image analysis - intrusion, crossing the line (tripwire) • SMD PLUS - searching for an object classified as: human, motor vehicle	• Intelligent image analysis - intrusion, crossing the line (tripwire) • SMD PLUS - searching for an object classified as: human, motor vehicle
