

	ROBOT VACUUM CLEANER WITH A MOP RV-L11-A IMOU	ROBOT VACUUM CLEANER WITH A MOP RV-L11S-A IMOU
		
	420.51 EUR 420.51 EUR	323.72 EUR 323.72 EUR
Automatic charging	✓	✓
Automatically resume cleaning after charging	✓	✓
Automatic container emptying	✓	✓
Floor mopping function	✓	✓
Suction power	2700 Pa	4500 Pa
Dust container capacity	300 ml	300 ml
Water tank capacity	250 ml	250 ml
Maximum obstacle height	2 cm	2 cm
Virtual wall / "no-go" zones	✓ / ✓	✓ / ✓
Cliff sensor	✓	✓
Parameters adjustment	✓	✓
Noise level during operation	65 dB	65 dB
Schedule	✓	✓
Battery capacity	3200 mAh	6400 mAh
Backup time	2 h	2.5 h

Main features	• The capacity of the dust bag in the docking station : 3 l • Carpet Boost - increasing the suction power when moving over carpets and floor coverings, • LiDAR System - an advanced, precise navigation system that uses the reflection of a light beam to detect the distance from objects and their shape - Sampling rate : 2016 sample points per second, Detector range : 8 m, • Precise setting of no-go zones and restricted zones (e.g. cleaning without a mop) • Ability to set different cleaning parameters for each room / zone • An extensive, precise work schedule • Smart planning of the most efficient cleaning route based on the map of the room • Possibility to give an immediate command to clean a given place and direct remote control of the robot	• Carpet Boost - increasing the suction power when moving over carpets and floor coverings, • LiDAR System - an advanced, precise navigation system that uses the reflection of a light beam to detect the distance from objects and their shape - Sampling rate : 2016 sample points per second, Detector range : 8 m, • Precise setting of no-go zones and restricted zones (e.g. cleaning without a mop) • Ability to set different cleaning parameters for each room / zone • An extensive, precise work schedule • Smart planning of the most efficient cleaning route based on the map of the room • Possibility to give an immediate command to clean a given place and direct remote control of the robot
Dimensions	• Cleaning robot : Ø 350 x 100 mm • Base Station : 348 x 259 x 209	• Cleaning robot : Ø 350 x 100 mm • Base Station : 356 x 250 x 193
Weight	• Cleaning robot : 3.7 kg • Base Station : 4.1	• Cleaning robot : 3.7 kg • Base Station : 3.9
Operation temp. / Relative humidity	0 ... 40 °C / max. 90 % Cleaning robot	0 ... 40 °C / max. 90 % Cleaning robot
