

Code: OR-PI-456/230AC

## RELAY **OR-PI-456/230AC** ORNO

Net: **21.92 EUR** Gross: **21.92 EUR**

It can be used to increase maximal load of controller transistor output line and for galvanic isolation between output line and load point.

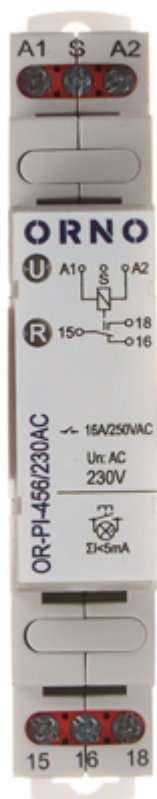

### SPECIFICATION

|                          |                                                                                                                                                                    |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Number of relay outputs: | 1                                                                                                                                                                  |
| Power supply:            | 230 V AC                                                                                                                                                           |
| Current consumption:     | 30 mA @ 230 V AC                                                                                                                                                   |
| Relay maximal load:      | 16 A / 250 V AC (max)<br>16 A / 24 V DC (max)                                                                                                                      |
| Output:                  | 1 x NO/NC                                                                                                                                                          |
