WI-FI SMART PLUG **EC-SMART01** Tuya Smart Wi-Fi

Net: 9.63 EUR Gross: 9.63 EUR

The EC-SMART01 Wi-Fi Smart Plug allows to control the devices connected to it using the mobile application. For proper functioning of the device, it is necessary to connect it to the Wi-Fi network with Internet access.

Beyond direct control, the device has the ability to program the on and off schedule, and in "Away Mode" it can simulate the presence of household members by turning on and off connected devices at different times. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).

Tuya is an international home automation platform that connects thousands of products made by different manufacturers. The system can support all the most popular communication protocols such as Wi-Fi, Zigbee, Bluetooth.

Attention! Controlling the device and schedule settings is possible if the device has access to the Internet.

In the event of a power failure, the device remembers the last state and returns to it when the power is turned on again. This setting cannot be configured.

The device does not have the function of measuring voltage, current and power.
