

Code: SCOTCH-1601/400

ELECTRICAL INSULATING SPRAY **SCOTCH-1601/400 3M**

Net: **12.77 EUR** Gross: **15.71 EUR**

The SCOTCH-1601/400 product is a colorless, transparent isolation aerosol based on alkyd resin. After drying, it forms a transparent, strong, flexible, non-cracking and non-flaking coating with high dielectric strength: 40 kV/mm.

The preparation prevents short circuits and the effects of leakage, and also protects the cable against adverse weather conditions, moisture and salt (in sea conditions). The applied coating is resistant to UV radiation, acids, oils, moisture and water.

SPECIFICATION

Voltage insulation:	≥ 40 kV / mm
Thermal endurance:	120 °C
Main features:	<ul style="list-style-type: none">• Application : The product is dedicated to protect: coils, solenoids, transformers, electronic components, printed circuit boards, etc.,• Drying time :<ul style="list-style-type: none">- Initial hardening : 15 minutes (in room temperature)- Full hardening : 120 minutes (in room temperature)
Color:	Colorless
Package capacity:	400 ml
Weight:	0.39 kg
Dimensions:	Ø 200 x 67 mm
Manufacturer / Brand:	3M
Guarantee:	2 years
