

SOFTWARE LICENSE DSSEXRESS-BASE DAHUANet: **550.42 USD** Gross: **677.02 USD**

The base license for DSS Express is necessary to use the software in the object security system. The DSSEXRESS-BASE license allows to run the DSS Express Server application on one computer and manage:

- 64 basic video channels,
- 2 video channels with intelligent image analysis enabling face recognition,
- 2 LPR / ANPR cameras, allowing recognition of vehicle license plates,
- 64 transitions (bolt or electromagnetic lock),
- 128 VDP devices (Internal panels)

Connecting more devices to the system requires to purchase a separate license for each redundant device, including its type.

The DSS Express software is an efficient, flexible, scalable and highly reliable central management system. Thanks to the client-server architecture that allows integration with multiple surveillance systems, the DSS Express provides central management, information exchange, convenient connections and cooperation of many services, and allows management of devices, alarms and user privileges.

This software provides central data storage functions, support for video walls, maps and advanced features such as counting people, business analytics, face recognition, intelligent tracking using radar or fisheye, ANPR camera image.

Instruction for obtaining a license.

- 1 - Install the DSS Express software on the target computer.
- 2 - Purchase the license in the right amount and for the specific devices and functions you need.
- 3 - In the DSS Express software generate a file with the license request and send it to us in the "Information to order".
- 4 - In the feedback you will receive a license file which must be imported in the DSS Express software.

Attention!

The device / function management license in DSS Express is assigned to the software installed on a given computer. The license request file generates **ONLY** on the target computer's hardware configuration.

**SPECIFICATION**

Processor:	<ul style="list-style-type: none"> • Recommended : Intel Xeon E3-1220 v5 @ 3.00 GHz • Minimal : Intel Core i3-2120
RAM:	<ul style="list-style-type: none"> • Recommended : 8 GB • Minimal : 8 GB
Disk capacity:	<ul style="list-style-type: none"> • Recommended : 500 GB - Reserving for DSS • Minimal : 200 GB - Reserving for DSS
Ethernet port:	2 @ 1000 Mb/s
Operating system:	Windows Server 2008 Standard / Windows Server 2012R2 Standard / Windows Server 2016 Standard / VMwareESXI 6.0(Windows Server 2008 Standard) / VMware ESXI6.0 (Windows Server 2012 R2 Standard) / VMware ESXI 6.0(Windows Server 2019 Standard) / Windows 7 (64bit) / Windows 10 (64bit)

Hardware configuration for PC client:

Processor:	<ul style="list-style-type: none"> • Recommended : Intel Core i5-6500 @ 3.20 GHz • Minimal : Intel Core i3-2120 @ 3.20 GHz
RAM:	<ul style="list-style-type: none"> • Recommended : 8 GB • Minimal : 4 GB
Disk capacity:	<ul style="list-style-type: none"> • Recommended : 100 GB Reserving for DSS • Minimal : 50 GB Reserving for DSS
