

**SOFTWARE LICENSE DSSEXRESS-FR DAHUA**Net: **99.21 USD** Gross: **122.03 USD**

The DSSEXRESS-FR single license authorizes to add 1 video channel with intelligent image analysis to the DSS Express software, enabling face recognition.

**Attention!** One single video channel is understood as a single IP camera or a single channel from the XVR / NVR recorder.

**Attention!** This product requires a valid DSSEXRESS-BASE license.

The DSS Express software is an efficient, flexible, scalable and highly reliable central management system. Thanks to the client-server architecture that allows integration with multiple surveillance systems, the DSS Express provides central management, information exchange, convenient connections and cooperation of many services, and allows management of devices, alarms and user privileges.

This software provides central data storage functions, support for video walls, maps and advanced features such as counting people, business analytics, face recognition, intelligent tracking using radar or fisheye, ANPR camera image.

**Instruction for obtaining a license.**

- 1 - Install the DSS Express software on the target computer.
- 2 - Purchase the license in the right amount and for the specific devices and functions you need.
- 3 - In the DSS Express software generate a file with the license request and send it to us in the "Information to order".
- 4 - In the feedback you will receive a license file which must be imported in the DSS Express software.

**Attention!**

The device / function management license in DSS Express is assigned to the software installed on a given computer. The license request file generates **ONLY** on the target computer's hardware configuration.
