## AUDIO MODULE **HAP201** DAHUA

Net: **96.14 EUR** Gross: **118.25 EUR**

The HAP201 is designed to listen to sound from the surroundings and operate with DVRs. The device is equipped with microphone built-in inside aesthetic plastic housing, making it ideal for arranging practically at any room. Ideally suited for installation in suspended ceilings, because a small part of the device protruding from outside the ceiling does not attract the attention of bystanders, and also does not adversely affect the aesthetics.
