INVERTER POWER GENERATOR **DY-3020/IS-PRO** 3000 W Dynamo

Net: **715.48 EUR** Gross: **715.48 EUR**

The use of technology with the use of an inverter allows to obtain a stable output voltage that allows for safe powering of electronic receivers.

The inverter generator is used for emergency power supply, e.g. computers, server rooms, telephones, central heating furnace controllers, digitally controlled household equipment, heat pumps, electrically opened gates and garage gates, various medical devices and other devices sensitive to voltage fluctuations. It is also a convenient power supply in the field of tourism, e.g. caravans, camper-vans, boats, etc.

Device in the Silent version - very quiet generator operation at 65 dBA.
