

Code: MRS-504

## MULTISWITCH **MRS-504** 5 INPUTS/4 OUTPUTS TERRA

Net: **57.13 EUR** Gross: **57.13 EUR**

Radial multiswitches of MRS series are dedicated for small and medium (4-70 outlets) SMATV systems with distribution of the first SAT IF and terrestrial TV signals. The radial multiswitches of MRS series are intended for systems wholly or partly based on star topology in which the cables to the terminal outlets go from one multiswitch or a group of multiswitches. This solution is optimal for single-family homes and many multifamily houses. Die-cast housing guarantees high screening efficiency - class A.

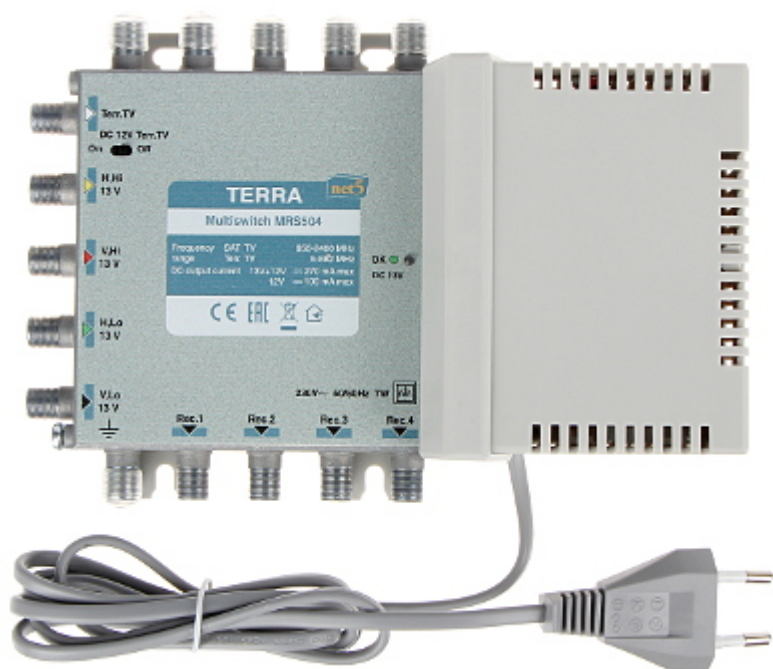

### SPECIFICATION

|                                           |                                                                                                                                                                                                |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inputs:                                   | 4x 950 MHz ... 2400 MHz<br>1x 5 MHz ... 862 MHz - Passive                                                                                                                                      |
