Code: VMT-151

MONITOR VGA, 2xVIDEO, HDMI, AUDIO **VMT-151** 15 " VILUX

Net: 180.02 EUR Gross: 180.02 EUR

Due to its picture ratio 4:3, this monitor is perfect solution for monitoring applications, because there is a natural image ratio (image is not horizontally scaled up).
The LED matrix illumination technology allows to real colors reproduction, 40% lower current consumption and much lower failure rate compared to normal LCD monitors with CCFL illumination. It has two types of mounting. As standalone or VESA 100 mounting.
The control keys are placed outside of monitor working area. This solution allows to place the monitor inside housing to protect it against change any settings by other people. This model is equipped with all kinds of inputs, what allows to display an image from any kind of signals using in CCTV systems.
Interesting solution is placing the speakers of the back side of housing. It does not bother listening to the AUDIO from the recorder at the same time does not reduce the area of the monitor front panel.
The device is designed to continuous work in closed spaces.

OUR OPINIONS

- LED matrix illumination technology. The VILUX company - relatively young, but very dynamic company entering to European market has specialized own production at CCTV monitors and their results in our opinion are really good.
