Net: **24.17 EUR** Gross: **29.73 EUR**

BNC plug crimped on coaxial cable.

The kind of material used eliminates any corrosion. High precision ensures low loss and insertion force, as well as nice look. It can be compressed with ease, providing stable high performance connectivity for a long time.

The connector is produced under strict technological discipline. The plug is tight in the socket, there is no risk of losing the contact, which takes place in the case of cheap connectors. The inner conductor of the cable inserted into the inlet is centered and stopped.
