Net: **48.84 EUR** Gross: **48.84 EUR**

The ZK-40B/16 power unit is designed to powering several SK-40 cameras stabilizers over a standard CCTV YAP75-0.59/3.7+2x0.5 cable.

Attention! If the power adaptor is using for continuous work (24H) the rated current of the adaptor should be less than 80% of the maximal current. Please pay attention for proper cooling conditions of the power adaptor during work!

The ZK-40B/16 power supply unit enables powering the line with non-stabilized ca. DC 40V voltage which passes to SK-40 stabilizer. The stabilizer delivers stable DC 12V voltage, which is used for powering the cameras with thermostats. The device is powered by AC 29V voltage from included TTS-80 power adapter.
