

Code: LIGHTNING-W/USB-W-1M

CABLE **LIGHTNING-W/USB-W-1M** 1.0 m

The cable allows to connect Apple devices equipped with a Lightning connector (iPhone, iPad mini, iPad, iPad Air, iPod touch, iPod nano) to devices with a USB socket (eg laptop, computer, USB charger) for data transfer and charging. The connector has a chip for authorization by Apple devices. The cable supports data transfer, synchronization and battery charging functions. The video output function is not supported. The cable is not an original Apple cable, but it has parameters that guarantee trouble-free cooperation with these devices.
