

Code: B3

UNIVERSAL CONTROL MODULE 24V **B3** VIDOS

The B3 control module allows to increase the capabilities of the VIDOS video doorphone system with the possibility of controlling an additional automatic gate. The device requires connection to both input lines of the monitor.

It is possible to use the B3 module in the case of using one or two gate stations and independent control of individual gate operators.

Attention! The device works only with VIDOS internal panels equipped with the automatic gate operator control function.
