INDUSTRIAL POE/EPOE SWITCH **PFL2106-4ET-96** 5-PORT + SFP DAHUA

The PFL2106-4ET-96 PoE Switch is an industrial type device enabling fluent network transmission at rates 10 / 100 / 1000 Mbps. The devices of the PFL series have been designed for installations with significant distances between switch and PoE powered devices. Devices of this type can be used in installations realized in industrial facilities in harsh environmental conditions like high or low temperature.

Attention! The SFP port requires the SFP module, which is available in our offer.

The device is equipped with ePoE technology which enables transmission up to 800 m at a speed of 10 Mb/s or 300 m at a speed of 100 Mb/s via cat. 5e twisted-pair.
