DATA SHEET

Code: DSSPRO-HOT-STANDBY

SOFTWARE LICENSE **DSSPRO-HOT-STANDBY** DAHUA

The DSSPRO-HOT-STANDBY license authorizes to run a second DSS Pro server operating in Hot-Standby mode. The Hot-Standby mode consists in parallel operation of 2 servers, one of which acts as an active server and the other is its backup, functioning copy. In the event of an active server failure, the backup device is able to immediately take over its tasks without causing any interruption in the system's functioning.

The DSS Pro software is an efficient, flexible, scalable and highly reliable central management system. Thanks to the client-server architecture that allows integration with multiple surveillance systems, the DSS Pro provides central management, information exchange, convenient connections and cooperation of many services, and allows management of devices, alarms and user privileges.

This software provides central data storage functions, support for video walls, maps and advanced features such as counting people, business analytics, face recognition, intelligent tracking using radar or fisheye, ANPR camera image.

Instruction for obtaining a license.

1 - Install the DSS Pro software on the target computer.

2 - Purchase the license in the right amount and for the specific devices and functions you need.

3 - In the DSS Pro software generate a file with the license request and send it to us in the "Information to order".

4 - In the feedback you will receive a license file which must be imported in the DSS Pro software.

Attention!

The device / function management license in DSS Pro is assigned to the software installed on a given computer. The license request file generates **ONLY** on the target computer's hardware configuration.

Processor:	• Recommended : E5-2640 v3 @ 2,60 GHz, 8 core • Minimal : E3-1220 v5 @ 2,60 GHz, 4 core
RAM:	• Recommended : 16 GB • Minimal : 8 GB
Disk capacity:	1 TB, 500 GB - Reserving for DSS
Ethernet port:	• Recommended : 4 @ 1000 Mbps • Minimal : 2 @ 1000 Mbps
Operating system:	Windows 7 Ultimate (64-bit) / 10 Enterprise / Server 2008 R2 Standard

Hardware configuration for PC client:

Processor:	• Recommended : Intel Core i5, 64 bits, 4 core • Minimal : Intel Core i3, 64 bits, 4 core
RAM:	• Recommended : 8 GB • Minimal : 4 GB
Disk capacity:	• Recommended : 200 GB Reserving for DSS • Minimal : 100 GB Reserving for DSS

Graphics card:	• Recommended : NVIDIA® GeForce®GT 730 • Minimal : Intel® HD Graphics 4400
Ethernet port:	1000 Mbps
Operating system:	Windows 7 / 8.1 / 10

Hardware configuration for mobile client:

Android:	• Resolution : min. 800 x 480 • RAM : min. 2 GB
iPhone:	iPhone 5 or better

General information:

Manufacturer / Brand:	DAHUA
