SWITCH POE **TL-SG1005LP** 5-PORT TP-LINK

Due to reliability and ensuring high quality of transmission, the TL-SG1005LP 10/100/1000 Mb/s 5-port PoE desktop type switch is perfect solution for expanding home or office network. Four ports support Power over Ethernet (PoE) function.

Switch has the priority function which will help protect the system when the system power is overloaded. The power consumption of the devices powered by PoE is up to 40W. The devices connected to the ports with higher priority are powered in the first place.

Attention! Order of priority: port-1 > port-2 > port-3 > port-4. This feature protects the system in case of overloading.
