

Code: SINUS-2000/24

CONVERTER MODULE **SINUS-2000/24**

Inverter module increasing the voltage. The SINUS-2000/24 device converts the input voltage to the 230V AC value.

Due to the ideal sine wave approximation (the same as in the power grid), the SINUS-2000/24 is ideal for powering inductive and capacitive devices, such as: power tools, low-power household appliances, heaters, central heating pumps, etc.
