

Code: MB-3

## BALLAST MAST BASE **MB-3**

The MB-3 ballast mast base is perfect to use when there is a need to install the devices on the mast for a specified time (construction works, advertising campaign, festival, etc.). We can instantly without damaging the walls or the ground in a solid way fix the elements on the mast, and next just as quickly all elements disassembled.

To load the base, use concrete blocks of dimensions 380 x 240 x 120 mm and weight min. 24 kg in the dry state.

**ATTENTION! The kit does not include the M6 blocks neither mast, which is selected depending on needs from one-element masts up to 50 mm diameter.**

Height of the mast:	max. 3 m (not included)
