

Code: MR-300R/24V

## OUTDOOR SIREN **MR-300R/24V**

Outdoor siren with optical and acoustical signaling intended for use in intruder alarm systems. Optical signaling source are LEDs, and acoustical signaling is generating by piezo transducer.

High-impact polycarbonate enclosure, featuring a very high mechanical strength and guarantees aesthetic appearance of siren even after many years of using. Construction enables high level of tamper protection (against opening and removing from mounting surface).

Sound pressure level:	• 115 dB/m
Main features:	<ul style="list-style-type: none"> <li>• Separate control inputs for optics and acoustics</li> <li>• Sound signal can be selected - 2 melodies</li> <li>• Possibility to choose the duration of the acoustic signal</li> <li>• Tamper protection (detection of removing from mounting surface and enclosure opening)</li> </ul>
Color:	White / LED indication - Red
Internal backup battery:	—
Power supply:	24 V DC
Maximal current consumption:	350 mA
Weight:	0.49 kg
Dimensions:	250 x 155 x 67 mm
Guarantee:	2 years
