

Code: SHUTTERBOX/BLEBOX

SMART CONTROLLER FOR ROLLER SHUTTERS **SHUTTERBOX/BLEBOX** Wi-Fi, 230 V AC

The SHUTTERBOX/BLEBOX controller enables remote control of the roller shutters with setting a desired stop position. It is also possible to control the percentage of slats opening in the facade shutters and to control the roof window, awning, overhead projector screen and even curtains.

To work with full functionality, the device requires connection to a home Wi-Fi network. Controlling BleBox devices via the cloud requires additionally connecting the home network to the Internet and enabling the "Remote access" function in the device configuration.

Beyond direct control, the device has the ability to program the opening and closing schedule and linking to different system events. Voice control allows you to control the device via voice commands from Amazon Alexa or the Google Assistant (Internet access required).

Attention! Controlling the device with a physical switch is done by shorting / opening the IN contact to the neutral wire. The device can operate with monostable (momentary) push-buttons.

Application:	roller shutters, roof windows, awnings, drop-down screens, curtains
Number of channels:	1
Rated voltage:	230 V AC
Maximal total load:	1150 VA
Total maximal current:	5 A
