

Code: AKC-X1/18650

## CELL HOLDER FOR 1 BATTERY **AKC-X1/18650**

A holder for 18650 cells solves the problem of connecting them in many electronic projects (eliminates the need to weld into a package or solder cells). The holder has metal contacts and wires with removed insulation at their ends, which ensure a secure connection between the battery and the target device.

**Attention!** Due to thicker positive wire (red), which protrudes beyond the hook, some batteries may not have a contact. This problem can be solved, among others, by adding a little bit of tin or use of a metal washer.

Size:	18650
Number of cells:	1
Connectors connection:	—
Current I:	max. 1 A
Material:	Plastic
Color:	Black
Weight:	0.008 kg
Dimensions:	<ul style="list-style-type: none"> <li>• 76 x 21 x 20 mm</li> <li>• 14 cm - Length of the cables</li> </ul>
