

Code: CLEANING-STICKS/20

CLEANING STICKS **CLEANING-STICKS/20** AG TERMOPASTY

The CLEANING-STICKS/20 dust-free cleaning sticks are used for cleaning and care of electronic and optical devices. The delicate material of which the cleaning tips are made perfectly collects solid impurities (dust, deposits), and also has very good properties for absorbing liquids. The shape of the sticks makes it possible to clean both larger flat surfaces and reach hard-to-reach nooks and crannies.

To get the most out of the product, it is recommended to use it together with cleaning agents suitable for the type of surface or device.
