

Code: GST40A12-P1J

## POWER SUPPLY ADAPTER **GST40A12-P1J** MEAN WELL

Attention! If the power adaptor is using for continuous work (24H) the rated current of the adaptor should be less than 80% of the maximal current.

Please pay attention for proper cooling conditions of the power adaptor during work!

**Attention!** The power supply adapter does not include a CEE-77/IEC-C13 power cord, which can be purchased separately.

|                                 |                                                                                                              |
|---------------------------------|--------------------------------------------------------------------------------------------------------------|
| Input voltage:                  | 90 ... 264 V AC                                                                                              |
| AC input frequency:             | 47 ... 63 Hz                                                                                                 |
| Output voltage:                 | 12.0 V DC                                                                                                    |
| Output current:                 | 3.34 A                                                                                                       |
| Output power:                   | 40 W                                                                                                         |
| Average efficiency during work: | 89.5 %                                                                                                       |
| Adapter type:                   | Switching                                                                                                    |
| Output voltage adjustment:      | —                                                                                                            |
