DATA SHEET

Code: APT-210

REMOTE CONTROL **APT-210** BE WAVE SATEL

Universal remote controller to control the operation of BE WAVE systems. Its additional advantage is the option to individually configure each button, so that its operation can better suit your needs.

The APT-210 supports the other devices copmpatible with wireless BE WAVE system.

The **BE WAVE** System is a family of unique wireless devices, bringing smart solutions to your home, performing home automation functions, protection against intruders, analysis of sensor readings and detection and response to events.

Support:	BE WAVE system
Frequency band:	868.0 MHz ... 868.6 MHz (ABAX2)
Radio communication range (at open area):	< 500 m
Number of buttons:	5 (programmable)
LED indicators:	3
Mobile phones support:	Cooperation with the controllers of the Smart-Hub series : • The BE WAVE free application on Android • The BE WAVE free application on iOS
Main features:	• five buttons whose operation can be individually defined in the system, allowing the keyfob functionality to be customized to the needs and habits of the user • LED indicators displaying the device's operating status • Bidirectional communication • AES-128 data encryption • Frequency hopping against jamming for reliable transmission • Remote configuration • Remote update of software • Beep signal • battery diagnostics • detection and signaling of low power of the keyfob battery • Splash-proof casing • Pivoting metal clip for belt, bag or shirt
Housing:	Plastic + Rubber
Color:	Light gray

Environmental class EN 50130-5:	II
Power supply:	1 x CR2032 3V (included)
Battery lifetime:	< 8 years
Operation temp:	-10 °C ... 55 °C
Permissible relative humidity:	93 ± 3 %
Weight:	0.024 kg
Dimensions:	37 x 66 x 14 mm
Manufacturer / Brand:	SATEL
Guarantee:	2 years
