

Code: T-7

ATTENUATOR FOR CCTV CAMERAS **T-7**

Adjustable attenuator, allows to adjust the different levels of video signals in CCTV system. The plastic housing ensures easy cable montage. The cheapest DVR models are equipped with capture elements with very low dynamic range and have problems with too high camera voltage levels on their inputs.

Bandwidth:	0 ... 15 MHz
Attenuation range:	0 dB, 6 dB, 9.5 dB
Connector:	75 Ω BNC plug
Weight:	0.03 kg
Guarantee:	2 years
