

Code: GUS-32G/30

SPIRAL PIPE **GUS-32G/30**

Spiral, flexible wiring pipe is designed to isolation and mechanical protection of the electrical, communications and other industrial installations exposed to mechanical damages.

In package:	30 m
External diameter:	Ø 38 mm
Inner diameter:	Ø 32 mm
Material:	Self-extinguishing PVC
Mechanical strength:	350 N / 5 cm
IK rating:	IK07
Color:	Gray RAL7035
Main features:	<ul style="list-style-type: none"> • flexible cover with rigid spiral reinforcement • resistant to tensile and compressive stress and UV radiation • withstand bending angle equal to its diameter without deformation or break • smooth inner surface • made from self-extinguishing, thermoplastic, lead compounds free PVC material
Guarantee:	2 years
