

Code: OR-DOM-CL-909

WIRELESS DOORPHONE **OR-DOM-CL-909**

Wireless doorphone is recommended for buildings where connection to distributed internal system is not possible.
The electromagnetic strike control is performed wirelessly, directly from earphone (the latch release mechanism and electric strike require additional 12V DC power supply).

DOOR STATION:	
Number of buttons (tenants):	1
proximity reader built-in:	—
Color:	Dark graphite
Mount:	Surface-mounted
Battery power supply:	Door station : 2x Battery LR14 (C) (not included) / Power adapter 12 V DC (not included)
Weight:	0.16 kg
Dimensions:	60 x 177 x 35 mm
UNIPHONE:	
Communication:	• Radio communication range (at open area) ≤ 75 m, • DECT wireless interface 1.8 ... 1.9 GHz
Main features:	Number of ring-tones 5
Battery power supply:	Earphone base : 7.5 V DC (power adapter included) Handset : 3 x 1.2 V Ni-MH batteries (included)
Weight:	0.205 kg
Dimensions:	95 x 185 x 90 mm

DATA SHEET

Manufacturer / Brand:	ORNO
Guarantee:	2 years
