## GPS TRACKER **TRACKIMO-MINI-2G** Trackimo

The TRACKIMO-MINI-2G GPS Tracker is a device allowing to track its position and inform about it via [Trackimo](#) portal, or mobile application for devices with ANDROID: [Trackimo 2017](#), iOS: [Trackimo](#) systems. The TRACKIMO-MINI-2G device is designed for the location of people and animals, so it has a Wi-Fi module to help locate the device inside buildings or in urban areas. The device allows you to track the route and the speed with high accuracy.

The device is accompanied with an annual subscription to the [Trackimo](#) portal valid from the moment of activation by the user. Once subscribed expires, it is possible to extend it for a period of time selected by the user (minimum 1 month) via the portal. The device is sold together with the SIM card, which, when activated, is immediately ready for use.

The set includes: leash, practical cover adapted to fit on the collar and an additional housing with a clip to attach the device, eg with a backpack.
