

Code: TM-70

GRAPHIC KEYPAD FOR ALARM CONTROL PANEL **TM-70** PARADOX

The TM-70 touch keypad does not only stand for attractive design, but also for simplification for the daily operation of advanced alarm systems and home automation using the functionalities of the PARADOX: Digiplex EVO, Spectra, Magellan control units.

Simple and intuitive menu makes the system operations simple and obvious. Floor plans displaying function allows to immediate localization of the violated detector. The Synoptic Table mode enables viewing the status of all partitions and lines on one screen. A complement of the alarm system functions is a possibility to display indoor and outdoor temperatures (extra sensor needed). In screen saving mode a touchscreen can be used as "photo frame" displaying the images saved on MicroSD card.
