

Code: SKY-PLAST-250

TWO-COMPONENT RUBBER **SKY-PLAST-250** RayTech

The SKY-PLAST-250 two-component rubber in the form of a paste allows for quick and convenient execution of local sealing. The product is perfect for use instead of insulating tape, or in places where the use of a classic gel or rubber in a liquid form is significantly impeded. In addition, due to the consistency of the mass before hardening (similar to plasticine), it can be used for making small rubber elements, such as gaskets, foos or pads.

Voltage insulation:	≥ 23 kV / mm
Package capacity:	2 x 0.125 kg
Main features:	<ul style="list-style-type: none"> • Application : The product is dedicated to protecting electrical connections, The product is also suitable for making molds and small rubber parts, • Color : Blue
Operation temp:	-60 °C ... 200 °C
Weight:	0.29 kg (total)
Dimensions:	2 x Ø 51 x 42 mm
Manufacturer / Brand:	RayTech
Guarantee:	2 years
