

Code: TRA-02

ATTENUATOR **TRA-02**

The device is designed to reduce the signal level in the RTV-SAT installation. The attenuator has a metal casing, which guarantees effective interference screening. The device has a DC-transition.

Bandwidth:	47 MHz ... 2300 MHz
Connectors:	F plug / F socket, 75 Ω
Attenuation:	0 dB ... 20 dB - Precision potentiometer adjustment
DC-transition:	max. 24 V, 500 mA
Guarantee:	2 years
