FLASHLIGHT **LT-PIVOT-PLUS** ENERGIZER

Thanks to a custom designed optics, the LT-PIVOT-PLUS flashlight delivers excellent and intense lighting of a large area with a wide beam.

The PivotPlus head can rotate vertically at an angle of 175°, giving the user a large variety of lighting angles adapted to different situations. The magnetic base allows to attach the flashlight to metal surfaces. The plastic rubber body of the flashlight is resistant to shocks, impacts and is water-resistant. There are 2 modes of light power available: maximum (high) and economical (low) with the possibility of smooth adjustment.

Attention! The flashlight with continuous lighting for half an hour in the HIGH mode automatically switches to LOW mode due to the saving of batteries.
