VIDEO SPLITTER **RV-1/2-UHD**

The RV-1/2-UHD active video splitter allows to split the video signal from one source without losing the signal quality. The device is dedicated to applications using video signal standards: AHD, HD-CVI, HD-TVI, PAL. The splitter is characterized by a modern design and is compatible with the 4K UHD sources. The RV-1/2-UHD product has very large frequency response up to 120MHz (-3dB). Each input and output of the device is protected by a specialized TVS diode.
