DATA SHEET

Code: PROXI-GATE

RADIO GATE CONTROLLER **PROXI-GATE** Bluetooth

The PROXI-GATE gate controller allows to control the automation of garage doors and entry gates using a mobile application. The connection between the tablet or phone and the controller is done via the Bluetooth interface and the mobile application available for the iOS, Android systems.
The device administrator has the option of setting the controller's operating mode (public/private) and managing the groups of users. The private mode allows connection to the device only for users who have been invited by the administrator. The public mode allows connection to the controller to any user of the Proxi application that is within range.
Attention! To cooperate with the controller, the mobile device must support the Bluetooth SMART Low Energy technology. Otherwise, it will not be possible to connect to the controller.

Operating range in open area:	≤ 80 m
Number of controlled outputs:	2
Relay maximal load:	40 V DC / 20 mA
Frequency range:	2.4 GHz
Transmission encryption:	AES
Power supply:	9 ... 30 V AC/DC
Weight:	0.061 kg
Dimensions:	88 x 42 x 30 mm
Manufacturer / Brand:	PROXI
Guarantee:	2 years
