

Code: BM-120/43-60/W

MOUNTING PLATE **BM-120/43-60/W**

The BM-120/43-60/W mounting metal plate is designed for mounting dome and tube cameras on masts. The product allows the installation of cameras and brackets with a mounting base diameter not exceeding $\varnothing 120\text{mm}$.

The metal plate is attached to the mast using U-bolt clamps (available separately). Hole spacing allows the use of U-bolts with a diameter of up to $\varnothing 8\text{mm}$ and spacing suitable for masts with diameters $\varnothing 43\text{mm}$... $\varnothing 60\text{mm}$.

Attention! In order to fix the camera to the metal plate, drill holes on its own adequately to the spacing of the holes of the fixed camera or distance bracket.

Pole diameters range:	$\varnothing 43\text{ mm} \dots \varnothing 60\text{ mm}$
Material:	Metal - Galvanized, powder painting
Color:	White
Weight:	0.28 kg
Dimensions:	125 x 150 x 2 mm
Guarantee:	2 years
