WRISTBAND WITH RFID TAG **ATLO-707/N**

The ATLO-707/N silicone wristband with RFID tag in the 13.56 MHz S50 standard. Clasp with a watch buckle allows to adjust the length of the wristband to any wrist, regardless of age and body composition of the user. The clearly marked location of the RFID tag and its small size considerably facilitate everyday use of the product. Sealed silicone housing allows the use of the wristband in places with high dustiness and everywhere where there is a constant risk of flooding the tag with water (eg at the pool).
