## SWITCH POE **XPOE-6-11-OF** 5-PORT ATTE

PoE powering possibility, compatible with the 802.3at standard makes the device more universal and easier to install. 5 ports support Power over Ethernet (PoE) function.

The LONG RANGE operation mode allows to increase the range of power and data transmission for ports LAN 1 ... LAN 4 to 280m while limiting the network bandwidth for these ports to 10Mbps.

**Attention!** Powering the switch via the LAN 5 port is only possible from Passive PoE devices from ATTE.
