

Code: R19-3U/350/B

HANGING RACK CABINET **R19-3U/350/B**

The R19-3U/350/B cabinet is suitable for mounting all sorts of devices in standard 19" rack housings. The location of the rails allows free access to the equipment and safeness of operations with delicate components such as fiber-optic patch cords.

Actuators used in the cabinet slow down the process of opening the front cover, on which there are rails for mounting devices. Thanks to this solution, devices mounted in the housing are not exposed to sudden shocks when opening the cover.

Internal width:	19 "
Internal height:	350 mm
Internal depth:	3 U
External width:	580 mm
External height:	500 mm
External depth:	180 mm
Plate thickness:	1.0 mm
Holes for fan coolers:	✓
