

Code: SP-500-R

OUTDOOR SIREN **SP-500-R** SATEL

The SP-500-R optical-acoustic outdoor siren performs the signaling function in two ways: red optical signaling (by means of blinking LEDs) and acoustical signaling (by means of modulated high-volume sound signal). An acoustic signal is generated by means of the piezoelectric transducer. Construction enables high level of tamper protection (against opening and removing from mounting surface).

The electronics board of the siren is made in SMD implementation and protected by impregnation against unfavorable effects of weather conditions, what ensures high reliability of the device. High-impact polycarbonate enclosure, featuring a very high mechanical strength and guarantees aesthetic appearance of siren even after many years of using.

Sound pressure level:	120 dB
Main features:	• Tamper protection (detection of removing from mounting surface and enclosure opening)
Power supply:	12 V DC \pm 15%
Maximal current consumption:	285 mA
Power supply:	(powering from external adapter)
Internal backup battery:	—
Operation temp:	-35 °C ... 60 °C
Weight:	0.66 kg
Dimensions:	300 x 195 x 97 mm
Manufacturer / Brand:	SATEL
Guarantee:	2 years
