

Code: IP-150+

## ETHERNET COMMUNICATION MODULE **IP-150+** PARADOX

IP-150+ is an improved version of the IP-150 module, equipped with larger memory, more stable communication protocols, the TCP/IP network module extending the ability to communicate with the alarm system.

|                       |  |
|-----------------------|--|
| Interface:            | <ul style="list-style-type: none"> <li>• Port Ethernet 10/100 Mb/s,</li> <li>• 2 x port I/O,</li> <li>• 2 x port 4-pin</li> </ul>  |
| Main features:        | <ul style="list-style-type: none"> <li>• Digiplex EVO / Spectra SP / MG5000 / MG5050 / MG5075 control panels support,</li> <li>• Remote system management via the Insite GOLD application,</li> <li>• Support for DHCP automatic address configuration,</li> <li>• Support for static IP addresses and P2P connections,</li> <li>• Automatic events notification via Email messages,</li> <li>• Email encryption support (SSL),</li> <li>• View the current status of all lines and partitions in the system,</li> <li>• Ability to arm and disarm system partitions,</li> <li>• Transmission encryption : MD5, RC4</li> </ul> |
| Power supply:         | 13.8 V DC - Power supply from alarm control panel via serial bus   |
| Current consumption:  | max. 100 mA  |
| Weight:               | 0.04 kg  |
| Dimensions:           | 109 x 30 x 22 mm   |
| Manufacturer / Brand: | PARADOX  |
| Guarantee:            | 2 years  |
