POWER DISTRIBUTION UNIT **SL-PS26B** (4 OUTLETS) USB Wi-Fi, Tuya Smart 1.5 m

Thanks to the power distribution unit, you can comfortably control the devices in your home using the Tuya Smart application, regardless of where you are and what you are doing.

Tuya is an international home automation platform that connects thousands of products made by different manufacturers. The system can support all the most popular communication protocols such as Wi-Fi, Zigbee, Bluetooth. Tuya Smart application works perfectly with Google Assistant, Amazon Alexa and many others, which allows you to control connected devices using voice commands.

An important aspect is also the full range of possible synchronization of devices. Their work can be made dependent, for example, on the weather, date and time, indications from sensors or according to stored sequences.

Attention! Controlling the device and schedule settings is possible if the device has access to the Internet.
