POWER GENERATOR **FH-8000TR** 3500 W / 7000 VA Honda GX 390 FOGO

Power Generator with manual start used as a power source in the event of power failure in the network or as a substitute power source on a construction site, plot, at home or in a workshop. The Honda engine used in the generator ensures high reliability and high work efficiency.

The genset engine's rubber stabilizers and engine mounts dampen vibrations and minimize noise.

The generator is equipped with an Automatic Voltage Regulation system AVR, which allows to eliminate unfavorable voltage fluctuations to a large extent.

The 45-liter fuel tank allows for long periods of uninterrupted operation.
